Thanks. So peer review is now scheduled to begin when? And the governor's exact comment for a response from you:

I am disappointed. Wyoming did not ask for this delay nor do we want it. This does not move us towards resolving the concerns of the landowners in the area.

Mead, sure. This is the statement on the extension. Please attribute to the Agency.

EPA has announced an eight month extension to September 30, 2013 for the public comment period of the draft research report titled, "Investigation of Ground Water Contamination near Pavillion, Wyoming." During this time EPA will continue its public outreach activities including meeting with key stakeholders and posting additional technical information on the agency's website. This extension will allow the public additional opportunity to comment on EPA's draft report and the latest round of sampling conducted by EPA and USGS. The Agency will take into account new data, further stakeholder input, and public comment as it continues to review the status of the Pavillion investigation and considers options for moving forward.

May I please see the statement? Gov. Mead was taken by surprise and is "disappointed." Says Wyoming doesn't want the delay and didn't ask for it. Response to the governor?

Subject: EPA Release

Rich,

Please be sure to cc me in any and all releases and/or statements regarding Pavillion. And all else that EPA is up to in Wyoming.

Thanks,
Mead
